RE: Mountain Valley Pipeline LLC
Cunningham Farmstead Documentation Package, September 2019
FERC Docket CP16-10
FR: 15-67-MULTI-207

Dear Mr. Friedman:

We received the *final* documentation package titled "Cunningham Farmstead: Past and Present" dated September 2019, which Tetra Tech prepared for the aforementioned undertaking. As required by Section 106 of the National Historic Preservation Act of 1966, as amended, and its implementing regulations, U.S. 36 CFR § 800: "Protection of Historic Properties," we submit our comments.

We have reviewed the submitted documentation package and accept it as fulfillment of the stipulations outlined in the "Revised Historic Property Treatment Plan: Cunningham Farmstead," dated December 2017. We applaud Tetra Tech for their work. The submitted report and materials are well documented and provide ample information about the property that will be useful to preservationists and researchers alike.

That treatment plan was prepared in consultation with our office and others to comply with Stipulation III.B.1 of the "Programmatic Agreement Among the Federal Energy Regulatory Commission, U.S. Department of the Interior Bureau of Land Management and National Park Service, U.S. Department of Agriculture Forest Service, U.S. Army Corps of Engineers, The State Historic Preservation Offices for West Virginia and Virginia, and the Advisory Council on Historic Preservation Regarding the Mountain Valley Project (FERC Docket No. CP16-10-000)" (PA).

We also received and delivered a copy of that same documentation package to the West Virginia Archives and History section. As this completes stipulations outlined in the project PA and associated Treatment Plan, it is our opinion no further consultation is necessary regarding the Cunningham Farmstead property; however, we ask that the applicant or their consultant contact

our office if the project should change.

We appreciate the opportunity to be of service. *If you have questions regarding our comments or the Section 106 process, please contact Mitchell K. Schaefer, Structural Historian, at (304) 558-0240.*

Sincerely,

Susan M. Pierce
Deputy State Historic Preservation Officer
