Comments (Reference above question:		, 								
SWPPP inspection area Sta#11354+00 to 11158+27. MP-215 to 211 Met with El's at Winding Way. The row is wet and slippery but in stable condition. The contractor has recently re-stabilized row from sta# 11237+00 to 11158+27, seed, mulched & replaced ECD's that needed attention, cleaned sumps graded out rilling. Perimeter controls are in acceptable condition. CWD pipe and plunge pools are in acceptable condition. Slope drains are in acceptable condition. Water bars and sump pits and end treatments are in acceptable condition. Access roads are maintained in acceptable condition.										
Note: It is a condition of National Pollutant Discharge Elimination System and Erosion and Sediment permits that a maintenance program be conducted to provide for the operation and maintenance of all BMPs to be inspected on a weekly basis and after each stormwater event. Please list in the space provided comments to note if repairs or replacement are needed or have been made for BMPs as a result of the inspection. Failure to conduct the required inspection may result in permit suspension or the imposition of civil penalties. If supplemental monitoring is required as part of a permit condition this form may be used to meet those monitoring requirements.

Comments (Reference above question	s as appropriate.)									
Comments (Reference above questions as appropriate.) Conducted VA SWPPP inspection from MP 215 to MP 218.3. Since last inspection Precision Pipeline has conducted ECD maintenance and ECD upgrades where needed. No forward progress has been completed due to FERC shut down. Right of way has been stabilized using seed, mulch, and natural vegetation. No deficiencies located during VA SWPPP inspection.										
Note: It is a condition of National Pollutant Discharge Elimination System and Erosion and Sediment permits that a maintenance program be conducted to provide for the operation and maintenance of all BMPs to be inspected on a weekly basis and after each stormwater event. Please list in the space provided comments to note if repairs or replacement are needed or have been made for BMPs as a result of the inspection. Failure to conduct the required inspection may result in permit suspension or the imposition of civil penalties. If supplemental monitoring is required as part of a permit condition this form may be used to meet those monitoring requirements.
