Re: Mountain Valley Pipeline Project
USACE Nos: LRH-2015-00592-GBR; LPR-2015-798; NAO-2017-0898
VMRC No: 2017-1609

Dear Messrs. Fannin, Pritts, Miller, Hardwick, and Owen:

Mountain Valley Pipeline is pleased to submit enclosed application package to your respective agencies.

Firstly, the package provides an application to the U.S. Army Corps of Engineers (USACE) for an Individual Permit under Section 404 of the Clean Water Act and Section 10 of the Rivers and Harbors Act. This application is submitted jointly to the Huntington, Pittsburgh, and Norfolk Districts.

Second, Virginia law requires that applicants seeking a Clean Water Act Section 404 permit from the USACE submit a joint permit application to the USACE and to the state resource agencies

Messrs. Fannin, Pritts, Miller, Hardwick, and Owen

with jurisdiction over state waters. To comply with that requirement, the package includes (1) an application to the Virginia Department of Environmental Quality (VDEQ) for a Virginia Water Protection Permit and (2) an application to the Virginia Marine Resources Commission (VMRC) to modify the Project's existing subaqueous lands permit.

Please be advised that requests for water quality certification will be submitted to VDEQ and WVDEP at a later date.

Due to the large size of the application package, it is being provided to the USACE through the DoD SAFE system. The materials are provided to VDEQ and VMRC through the VitaShare system. Hard copies of all or any portion of the application package will be provided at your request.

The Mountain Valley Pipeline project team looks forward to working with you through the respective permitting processes. We welcome any comments or questions you may have regarding the enclosed information. Please feel free to contact me at (724) 873-3009 or MHoover@equitransmidstream.com.

Respectfully submitted,
MOUNTAIN VALLEY PIPELINE, LLC
