Notes:

- 1 - For identified streams without a NHD (National Hydrography Dataset) name, the identified stream was given the name, "Unidentified Tributary (UNT)", of the first named receiving waterbody
- 2 - In decimal degrees
- 3 - RPW = Relatively Permanent Waters
 - NRPW = Non-Relatively Permanent Waters
 - TNW = Traditional Navigable Waters
- 4 - See Section 1.9.2 and Section 4.2 for more information
- 5 - Acres are rounded to four decimal places.
- 6 - Temporary fill discharge into waters of the U.S. Cubic yards are rounded to the nearest whole number.
- 7 - Permanent fill associated with the construction of Permanent access road and facilities. Cubic yards are rounded to the nearest whole number.
