

Mountain Valley Pipeline Project Joint Venture Formation and Binding Open Season

Where
energy
meets
innovation.

PITTSBURGH, PA (September 2, 2014) -- EQT Corporation (NYSE: EQT) and NextEra US Gas Assets, LLC, an indirect, wholly owned subsidiary of NextEra Energy, Inc (NYSE: NEE) today announced the formation of a joint venture, Mountain Valley Pipeline, LLC, that will construct and own the Mountain Valley Pipeline. The joint venture also announced the launch of a binding open season for the Mountain Valley Pipeline. The companies also announced EQT Corporation, through one or more of its affiliates, including EQT Midstream Partners, LP (NYSE: EQM), will operate the pipeline and own a majority interest in the joint venture.

With a vast supply of natural gas from Marcellus and Utica shale production, the Mountain Valley Pipeline is expected to provide at least two billion cubic feet per day of firm transmission capacity to demand markets in the Mid- and South Atlantic regions of the United States. Subject to FERC approval, the estimated 330-mile Mountain Valley Pipeline will connect the existing Equitrans transmission system in West Virginia, to Transcontinental Gas Pipeline Company's (Transco) Zone 5 compressor station 165 in Virginia – a highly marketable trading area for the southeast region. To-date, the joint venture has received firm capacity commitments that total 1.5 Bcf per day. The pipeline is expected to be in-service during the fourth quarter 2018.

“As we move into a binding open season, securing the 1.5 Bcf per day of firm capacity confirms we have an economically viable project. Marcellus and Utica producers will have cost-effective access to the growing demand for natural gas for use by local distribution companies, manufacturers, and power generation facilities,” stated Randy Crawford, senior vice president, EQT Corporation; and chief operating officer, EQT Midstream Partners.

“We are encouraged by the market response to the proposed Mountain Valley Pipeline thus far,” said TJ Tuscai, president, NextEra US Gas Assets. “We look forward to working with our partner EQT to bring a new reliable supply of natural gas to customers in the southeast United States.”

The binding open season was filed by the joint venture, and the initial operator of the pipeline will be a subsidiary of EQT Corporation. The binding open season is scheduled to end on September 29, 2014, at which time the final project scope will be determined. For more information on the binding open season, please visit www.eqt.com.

About NextEra Energy, Inc.

NextEra Energy, Inc. (NYSE: NEE) is a leading clean energy company with consolidated revenues of approximately \$15.1 billion, approximately 42,500 megawatts of generating capacity, and approximately 13,900 employees in 26 states and Canada as of year-end 2013. Headquartered in Juno Beach, Fla., NextEra Energy's principal subsidiaries are Florida Power & Light Company, which serves approximately 4.7 million customer accounts in Florida and is one of the largest rate-regulated electric utilities in the United States, and NextEra Energy Resources, LLC, which together with its affiliated entities is the largest generator in North America of renewable energy from the wind and sun. Through its subsidiaries, NextEra Energy generates clean, emissions-free electricity from eight commercial nuclear power units in Florida, New Hampshire, Iowa and Wisconsin. NextEra Energy has been recognized often by third parties for its efforts in sustainability, corporate responsibility, ethics and compliance, and diversity, and has been named No. 1 overall among electric and gas utilities on Fortune's list of "World's Most Admired Companies" for eight consecutive years, which is an unprecedented achievement in its industry.

EQT Cautionary Statements

Disclosures in this news release contain certain forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended, and Section 27A of the Securities Act of 1933, as amended. Statements that do not relate strictly to historical or current facts are forward-looking. Without limiting the generality of the foregoing, forward-looking statements contained in this news release specifically include the expectations of plans, strategies, objectives and growth, and anticipated financial and operational performance of EQT and its affiliates; including guidance regarding the proposed Mountain Valley Pipeline (MVP) and joint venture, such as the projected length of the MVP; the EQT affiliate to own and/or operate the MVP; the MVP's expected interconnections with facilities and pipelines; existing customer commitments; the timing of development and construction for the MVP; and the expected in-service date for the MVP. The forward-looking statements included in this news release are subject to risks and uncertainties that could cause actual results to differ materially from projected results. Accordingly, investors should not place undue reliance on forward-looking statements as a prediction of actual results. EQT has based these forward-looking statements on current expectations and assumptions about future events. While EQT considers these expectations and assumptions to be reasonable, they are inherently subject to significant business, economic, competitive, regulatory, and other risks and uncertainties, most of which are difficult to predict and are beyond EQT's control. The risks and uncertainties that may affect the operations, performance, and results of EQT's business and forward-looking statements include, but are not limited to, those set forth under Item 1A, "Risk Factors" of EQT's Form 10-K for the year ended December 31, 2013, as updated by any subsequent Form 10-Qs.

Any forward-looking statement speaks only as of the date on which such statement is made and EQT does not intend to correct or update any forward-looking statement, whether as a result of new information, future events or otherwise.

NextEra Cautionary Statements and Risk Factors That May Affect Future Results

This press release contains "forward-looking statements" within the meaning of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Forward-looking statements are not statements of historical facts, but instead represent the current expectations of NextEra Energy, Inc. (together with its subsidiaries, NextEra Energy) regarding future operating results and other future events, many of which, by their nature, are inherently uncertain and outside of NextEra Energy's control. Forward-looking statements in this press release include, among others, statements concerning adjusted earnings per share expectations and future operating performance. In some cases, you can identify the forward-looking statements by words or phrases such as "will," "may result," "expect," "anticipate," "believe," "intend," "plan," "seek," "aim," "potential," "projection," "forecast," "predict," "goals," "target," "outlook," "should," "would" or similar words or expressions. You should not place undue reliance on these forward-looking statements, which are not a guarantee of future performance. The future results of NextEra Energy and its business and financial condition are subject to risks and uncertainties that could cause actual results to differ materially from those expressed or implied in the forward-looking statements, or may require it to limit or eliminate certain operations. These risks and uncertainties include, but are not limited to, the following: effects of extensive regulation of NextEra Energy's business operations; inability of NextEra Energy to recover in a timely manner any significant amount of costs, a return on certain assets or an appropriate return on capital through base rates, cost recovery clauses, other regulatory mechanisms or otherwise; impact of political, regulatory and economic factors on regulatory decisions important to NextEra Energy; disallowance of cost recovery based on a finding of imprudent use of derivative instruments; effect of any reductions to or elimination of governmental incentives that support renewable energy projects or the imposition of additional taxes or assessments on renewable energy; impact of new or revised laws, regulations or interpretations or other regulatory initiatives on NextEra Energy; effect on NextEra Energy of potential regulatory action to broaden the scope of regulation of over-the-counter (OTC) financial derivatives and to apply such regulation to NextEra Energy; capital expenditures, increased operating costs and various liabilities attributable to environmental laws, regulations and other standards applicable to NextEra Energy; effects on NextEra Energy of federal or state laws or regulations mandating new or additional limits on the production of greenhouse gas emissions; exposure of NextEra Energy to significant and increasing compliance costs and substantial monetary penalties and other sanctions as a result of extensive federal regulation of its operations; effect on NextEra Energy of changes in tax laws and in judgments and estimates used to determine tax-related asset and liability amounts; impact on NextEra Energy of adverse results of litigation; effect on NextEra Energy of failure to proceed with projects under development or inability to
