Subject: RE: Mountain Valley Pipeline - Request for Meeting

John: I am available at 2:00 on the 10th. Unfortunately due to court hearings, that is the only time that day that I have. I just got a request for a conference call from Lavinia DiSanto for a 1:00 call regarding the ANST issues on the 10th. If for some reason that is rescheduled I'd be available at 1:00.

Subject: Mountain Valley Pipeline - Request for Meeting

Dear Mr. Chidester:

MVP would like to set up a call with you and others at Giles County to discuss the comments raised in your November 17, 2017, letter regarding the Big Stony Creek and the Greater Newport Rural Historic District Treatment Plans, specifically the following:

- Reforestation within the districts similar to the restoration and revegetation plan MVP proposes to use along the pipeline through the Jefferson National Forest
- Concerns that the Big Stony Creek Historic District should not be nominated to the National Register
- Establishment of a mitigation fund to restore and preserve elements within the Greater Newport Rural Historic District

We propose a conference call prior to January 10th to discuss your comments. We will set up a conference call once we hear from you regarding an appropriate time and date. MVP looks forward to discussing further.

Thank you for your attention.
