303.10	303.10	Reduced Transco Interconnect LOD to avoid environmentally sensitive area.	VA-PI-112	No	No	Yes	Evergreen Forest	Evergreen Forest	0	0	071-5525	None	None	None	None	PA-PIVA-H603-01	No Effect - Outside RLP range	No Effect - Outside candy darter range	No effect on mussels - variance does not occur at instream Project crossing	No effect (2)	No effect (6)	No change in LOD within Parcel	0.00	0.00	0.00	0.00	0.00	0.00

1 No individuals are currently known to occur near variance. Variance is within historic range and has potential habitat for RPBB; however clearing and revegetation are likely to increase habitat connectivity and quality of foraging habitat, thus benefitting RPBE

2 No individuals or populations are known to occur at the variance. Variance is within historic range and has potential habitat for RPBB; however any clearing and revegetation will increase habitat connectivity and quality of foraging habitat, thus benefitting RPBB

3 No individuals of running buffalo clover are known to occur at variance. No individuals or potential habitat for shale barren rockcress occur at variance. No individuals of small whorled pogonia known to occur near variance. No individuals or habitat for Virginia spiraea known to occur at variance. Outside of smooth coneflower known range

4 No individuals of running buffalo clover known to occur at variance. Outside of shale barren rockcress known range. Outside of small whorled pogonia known range. Outside of Virginia spiraea known range. Outside of smooth coneflower known range

5 Outside of known range for running buffalo clover. Outside of shale barren rockcress known range. Outside of small whorled pogonia known range. No individuals or potential habitat for Virginia spiraea known to occur at variance. Outside of smooth coneflower known range

6 Outside running buffalo clover known range. Outside of shale barren rockcress known range. No individuals of small whorled pogonia known to occur at variance. Outside of Virginia spiraea known range. Outside of smooth coneflower known range

7 Outside running buffalo clover known range. Outside of shale barren rockcress known range. No individuals of small whorled pogonia occur at variance and no potential habitat for small whorled pogonia. Outside of Virginia spiraea known range. Outside of smooth coneflower known range

8 Outside running buffalo clover known range. Outside of shale barren rockcress known range. Outside of small whorled pogonia known range. No individuals or potential habitat for Virginia spiraea occurs at variance. Outside of smooth coneflower known range

9 Outside running buffalo clover known range. Outside of shale barren rockcress known range. Outside of small whorled pogonia known range. Outside of Virginia spiraea known range. No direct effects on Smooth Coneflower as no individuals and no habitat occur at variance

10 Outside running buffalo clover known range. Outside of shale barren rockcress known range. Outside of small whorled pogonia known range. Outside of Virginia spiraea known range. No direct effects on Smooth Coneflower as no individuals are known to occur at variance

11 Outside known range of running buffalo clover, shale barren rockcress, small whorled pogonia, Virginia spiraea, smooth coneflower

12 No habitat or individuals of running buffalo clover occur at variance. Outside of shale barren rockcress known range. Outside of small whorled pogonia known range. Outside of Virginia spiraea known range. Outside of smooth coneflower known range
