RE: Mountain Valley Pipeline Project  
FERC Docket No. CP 16-10  
Proposed Slip Mitigation Workspace MVP-ATWS-SM-043  
FR: 15-67-MULTI-133

Dear Mr. Friedman:

We have reviewed the information that was submitted for the abovementioned undertaking. As required by Section 106 of the National Historic Preservation Act of 1966, as amended, and its implementing regulations, U.S. 36 CFR § 800: "Protection of Historic Properties," we submit our comments.

According to the submitted information, Mountain Valley Pipeline (MVP) proposes to repair a slip that occurred along the pipeline corridor. The ATWS abuts the pipeline corridor between MP 1.77 and MP 1.86 and the western edge of Access Road MVP-WE-008/o2 in Wetzel County, WV. A majority of the workspace was previously surveyed, during which one archaeological site, 46WZ127, and one aboveground architectural resource, WZ-0152/46WZ136, were recorded. These resources were determined not eligible for inclusion in the National Register of Historic Places. The direct and indirect areas of potential effect (APE) are consistent with that for the previously surveyed pipeline corridor.

Archaeological Resources:

The submitted information states that visual inspection was conducted within the currently proposed APE. Steeply sloped terrain and disturbance resulting from the slip were observed, precluding the need for shovel probe excavation. No new archaeological sites were identified. Consequently, we concur that no further archaeological investigation is necessary and that use of this workspace will have no effect on archaeological historic properties.

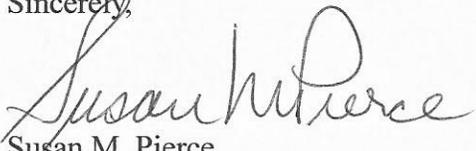

Architectural Resources:

We have reviewed the submitted information and determined no further consultation is necessary regarding the aforementioned project elements. While limited tree clearance will be required for the proposed variance, no documented historic architectural resources are located within or will have a view of that workspace. Thus, no further consultation is necessary regarding these three project elements; however, we ask that you contact our office if the project should change.
