Consider this email to be sent by Bambi Teague.

Bambi's computer is currently not working. She and our Plant Ecologist have reviewed the documents you have provided and are approving removal of the trees that you identified including those requested by David Anderson as visual mitigation by March 15th.

We are continuing our review of the appraisals and have not yet determined or can approve the estimates you provided as far as value. We hope to have that resolved in the next several weeks.

Sincerely,

David Anderson
