Tetra Tech, Inc.
6 Century Drive, 3rd Floor
Parsippany, NJ 07054

Dear Dr. Marshall:

Thank you for your report, "Mountain Valley Pipeline Project Phase II Archaeological Evaluations of Sites BLRI 00231 (44RN0383) and BLRI 00233 (44FR0402), in Blue Ridge Parkway, Roanoke and Franklin Counties, Virginia," covering archeological testing from December of 2016, which I received on February 19, 2017 in partial fulfillment of ARPA Permit BLRI 2017-01 (accession number SEAC-02830). The report is well written, and I appreciate the opportunity to review the results of your investigations. The park's Resource Manager, Bambi Teague, also has reviewed the report and indicated that the park is satisfied with it. The report is accepted as part of the terms of ARPA permit BLRI 2017-01 (accession number SEAC-02830).

Please be aware that acceptance of your report is based on Tetra Tech's compliance with the terms of the ARPA permit you were issued, and thus represents only one part of the Section 106 compliance process. Acceptance of your report in partial fulfillment of the ARPA permit will not complete the compliance process.

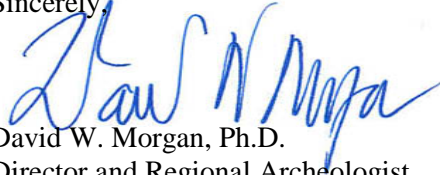

SEAC and the Blue Ridge Parkway should each receive one unbound and two bound copies of the final report on archival paper (Special Permit Condition 10), as well as electronic copies of the reports. The permit stipulates that all materials, including artifacts, reports, project documents, and GPS/GIS and total station data, are due within 30 days of the submission of the final report. If you have not already done so, please

contact SEAC GIS Coordinator Jill Halchin (jill_halchin@nps.gov or 850-580-8249) about providing spatial data.

Please feel free to contact me if you have questions.

Sincerely,

A handwritten signature in blue ink that reads "David W. Morgan". The signature is fluid and cursive, with the first letters of the first and last names being capitalized and prominent.
