Mr. Yost contacted me via phone this afternoon regarding this letter. Mr. Yost indicated that he did not want the Giles County Historical Board to participate in cultural resource mitigation discussions. He said that this issue was beyond the scope of this board.

Hello Director Yost – Mountain Valley would still like to meet to discuss cultural resource mitigation options. Please find the attached a letter requesting rescheduling of the meeting and hopefully clearing up any misunderstanding about the scope of the meeting. A hardcopy will follow. I cc'd Mr. Chidester as well.

Please contact me at your earliest convenience to discuss and/or to reschedule.

Thank you,

John
