**Subject: Draft Phase III Treatment Plan for Archaeological Site 44GS0241
FR # 15-76-MULTI**

Dear Ms. Adams:

On behalf of Mountain Valley Pipeline, LLC (MVP), a joint venture between affiliates of EQT Corporation, NextEra Energy, Inc., Con Edison Gas Midstream, LLC, WGL Holdings, Inc., and RGC Midstream LLC, you will find enclosed two copies of the subject treatment plan.

Following the Forest Service's comments on SEARCH's Phase II report delivered to the Virginia Department of Historic Resources (VDHR) and Eastern Band of Cherokee Tribal Historic Preservation Officer (THPO), MVP understands that the project will have an adverse effect on archaeological site 44GS0241. SEARCH develop a draft Phase III treatment plan for this resource to facilitate the preparation of a Memorandum of Agreement for the project. MVP and SEARCH understand that this treatment plan may require revision based on input from the Forest Service and consulting parties. As such, please do not hesitate to request revision, expansion, or clarification of the draft treatment plan. MVP is committed to mitigating the project's adverse effect on this resource and submits the enclosed as a starting point for continued consultation.
