**RE: MOUNTAIN VALLEY PIPELINE – ENVIRONMENTAL COMPLAINT
RESOLUTION PROCEDURES**

Dear [Property Owner],

Mountain Valley Pipeline, LLC (Mountain Valley) is preparing for the construction of the Mountain Valley Pipeline (MVP) project, which includes the installation of approximately 303 miles of pipeline and related facilities in West Virginia and Virginia.

Please find enclosed a procedure plan to assist in the resolution of landowner concerns along the proposed route. As stated in the enclosed plan, the MVP project team has established local contacts for landowners to call with their concerns. Please contact _____ at _____ with any questions or concerns regarding the construction and reclamation of the pipeline. Landowners should generally expect an initial response from the local contact within 24 hours.

We have worked diligently with landowners to identify the best possible route for the proposed pipeline and value the relationships we have built with these stakeholders over the past three years. Mountain Valley is dedicated to the safe, responsible, and environmentally conscious construction of our pipeline and we will continue to work with landowners throughout the construction of the pipeline to address any issues that may arise.

For more information on the project, please visit our website at www.mountainvalleypipeline.info or email us at mail@mountainvalleypipeline.info.

Sincerely,

Kevin Wagner
