Comments (Reference above questions as appropriate.)

Performed SWPPP inspection on Spread H from kickoff to CIS Grassy Hill. All Perimeter ECD's were inspected and found to be in good condition. All RCE's were clean and roads were free of any debris. All found to be waterbars built to specifications. The spread is currently in compliance.

Note: It is a condition of National Pollutant Discharge Elimination System and Erosion and Sediment permits that a maintenance program be conducted to provide for the operation and maintenance of all BMPs to be inspected on a weekly basis and after each stormwater event. Please list in the space provided comments to note if repairs or replacement are needed or have been made for BMPs as a result of the inspection. Failure to conduct the required inspection may result in permit suspension or the imposition of civil penalties. If supplemental monitoring is required as part of a permit condition this form may be used to meet those monitoring requirements.
